NIKA KUNCEWICZ

Impress Education Examiner

CURRENT ROLES

I currently work as a science IMPRESS Masterclass Examiner and Educational consultant creating different resources for schools, this includes lesson plans, support booklets and writing new curricula exam questions.

EXAM BOARD

AQA, Edexcel and Cambridge IGCSE

EXPERIENCE

I have been teaching Science for 11 years. Throughout my career I have had the privilege to work in the UK, Poland and Singapore. My specialism is Biology but I do also enjoy teaching Chemistry and Physics to GCSE level. I am familiar teaching co-ordinated sciences for AQA, Edexcel and Cambridge IGCSE. I have taught the IB for many years but have also delivered AQA A level course too.

IMPRESS EDUCATION

About me

What motivates you to work hard?

I have a Polish background and I do have to say this means I am almost genetically predisposed to working hard. It's all I've known, it's part of my nature to put in everything I have into everything I do. What drives me is seeing my students excel in what they do, it's part of what I love about teaching.

Who is your hero?

My mother – the most loving person I know who also managed to bring up 6 children (….relatively well 😊). Also Marie Curie an amazing scientist that is close to my heart.

What is your proudest accomplishment?

My little boy.

If you could choose to do anything for a day, what would it be?

I would take my whole family (all sports fanatics) to go skiing somewhere beautiful.

If you could go back in time, what year would you travel to?

2012 – I have my reasons!

If you could share a meal with 4 individuals, living or dead, who would they be?

Lesia, Teja, Aldona and Cezia – my four lovely sisters.
